

General Guidelines for APA Style Papers

- **Margins:**
 - All margins should be 1 inch on all sides (e.g., top, bottom, left, and right) on each page (excluding header).
- **Indentation:**
 - The first sentence of each paragraph should be indented 5 to 7 spaces (excluding the Abstract).
- **Font Type and Size:**
 - Acceptable typefaces include: Times Roman or Courier in 12 point size.
- **Spacing:**
 - Use double spacing between all lines of the manuscript.
- **Alignment:**
 - The manuscript should be left justified so that the right side of the paper has ragged edges.
- **Punctuation:**
 - There should only be 1 space after a period, even when the period ends a sentence.
- **Pagination:**
 - The page number appears one inch from the right edge of the paper on the first line of every page (except Figures), beginning with the title page.
- **Manuscript Page Header:**
 - The first two or three words of the paper title appear five spaces to the left of the page number on every page (except Figures) beginning with the title page. Manuscript page headers are used to identify manuscript pages during the editorial process. Using most word processors, the manuscript page header and page number can be inserted into a header, which then automatically appears on all pages.
