

FTP guide

This section describes how to scan documents directly to an FTP server. You can scan documents only one FTP address at a time.

Scanning to an FTP address using the keypad

- 1 Load an original document (pages, sheet edge, thickness, the ADF or thickness of the scanner glass).
Note: Do not scan postcards, photos, card stock, transparencies, photo paper, or thin media such as magnetic floppy disks in the ADF. Also do not scan on the scanner glass.
- 2 If you are loading a document into the ADF, adjust the paper guides.
- 3 On the home screen, touch **FTP**.
- 4 Touch the **FTP Address**.
- 5 Touch **Next**.

Scanning to an FTP address using a shortcut number

- 1 Load an original document (pages, sheet edge, thickness, the ADF or thickness of the scanner glass).
Note: Do not scan postcards, photos, card stock, transparencies, photo paper, or thin media such as magnetic floppy disks in the ADF. Also do not scan on the scanner glass.
- 2 If you are loading a document into the ADF, adjust the paper guides.
- 3 Press **0** to finish enter the FTP shortcut number.
- 4 Touch **Next**.

Scanning to an FTP address using the address book

- 1 Load an original document (pages, sheet edge, thickness, the ADF or thickness of the scanner glass).
Note: Do not scan postcards, photos, card stock, transparencies, photo paper, or thin media such as magnetic floppy disks in the ADF. Also do not scan on the scanner glass.
- 2 If you are loading a document into the ADF, adjust the paper guides.
- 3 On the home screen, touch **FTP**.
- 4 Touch **Search Address Book**.
- 5 Tap the name of an entry in the address book or scrolling to use the touch **Next**.
- 6 Touch the name that you want to add to the list to scan.
- 7 Touch **Next**.
