

ap9631 temperature sensor

Front Panel (AP9631)

Features

	Item	Description
1	USB ports	Reserved for future use.
2 3	Sensor ports	Connect temperature sensors, temperature/humidity sensors, or relay input/output connectors that support two input contacts and one output relay.
4	10/100 Base-T connector	Connects the NMC to the Ethernet network.

Includes: CD with software, Temperature Sensor, User Manual Supports the Temperature Sensor, Temperature and Humidity Sensor and Dry Contact I/O. AP - UPS Network Management Card 2 with Environmental Monitoring. Style: AP Remote monitoring and control of an individual UPS by connecting it directly to the network. Includes: CD with software, Temperature Sensor. I have a temperature sensor and a temperature and humidity sensor to add the SNMP library sensor to monitor the two port's temperature. I am using the AP card and neither the temp sensor (that came with card) nor a temp/humidity sensor will show in the web interface. This item includes a temperature sensor that links into the network management card to allow for environmental monitoring. Scheduling: Use the network. Never be concerned about overheating with its environmental monitoring functions, including a temperature and humidity sensor as well as a dry contact I/O. Temperature sensor (APT) AP Network Management Card only. Network Management Card quality assurance test slip. Declaration of Conformity. The APC AP UPS Network Management Card 2 with Environmental that support a temperature sensor (included), a temperature and humidity sensor. APC AP Thumbnail Image 1 from Front APC AP Thumbnail Image 2 from allows you to connect temperature sensors, temperature/humidity sensors. UPS Network Mgmt Card 2 w/ Environmental Monitoring #AP (0). Be the first bit encryption, E-mail alert, firmware upgradable, temperature sensor. APC temperature sensor. ? ex VAT. Add to order. Overview; Specification; Accessories; Licence Information; Find Similar. APC AP UPS Network Management Card 2 with Environmental Monitoring - Available at Includes: CD with software, Temperature Sensor, User Manual. Monitoring Room Temperature via APC Temp Sensor on 1 APC network management card model AP, connected to APC smart UPSs. *NEW* APC AP UPS Network Management Card 2 with Environmental Monitoring. Includes the AP card, APT APC Temperature Sensor, CD. The management card features input and output ports that support a temperature sensor (included), a temperature and humidity sensor (optional), and a. AP APC UPS Network Management Card 2 with Environmental Included in delivery: AP Card, CD with software, Temperature Sensor, User Manual. APC BY SCHNEIDER ELECTRIC AP UPS Network Management Card 2 the temperature sensor, temperature and humidity sensor and dry contact i/o.
